

AICEIM CONSTRUCTION LTD

Now Hiring:

Power Line Technician / Crew Foreman

AICEIM Construction Ltd. is a contracting company with operations in Calgary, Alberta and surrounding area. We specialize in consulting, design, procurement and installation of shallow utilities for residential and commercial development. We are currently looking for a Power Line Technician and/or an experienced Crew Foreman to join our team in Calgary and surrounding areas.

Description:

Safely and accurately install, repair, operate and perform tasks related to construction and maintenance of electrical systems. Provide leadership, guidance, and overall assistance to crews on various projects installing utilities such as power, cable TV, gas and telephone facilities in a safe and efficient manner, and to the high expectations of AICEIM and our clients.

Duties:

- Safely and efficiently installing and testing electrical facilities
- Install and terminations of both underground and overhead lines, cables, transformers, pedestals, splices, and lights.
- Participate in and contribute to daily job site hazard assessments and weekly safety meetings.
- Ensure cables and electrical equipment are operating properly & be able to test the various electrical components.
- Ability to carefully and correctly perform switching and grounding on various types of switchgear and equipment.
- All work to be done according to safe work procedures, company work policy, the various utilities' standards, and the Alberta and Canada Electrical Code.
- Overall assistance to crews doing various tasks to ensure timely project completion.
- Installing pre-cast concrete structures & underground fibre glass vaults.
- Placing conduit & different types of cables.
- Assisting in trenching, excavating, sanding, & backfill of trenches.
- Help with the installation of poles and streetlights.
- Material hauling, organizing and site cleanup. Must be able to lift 50 lbs comfortably. Must be able to walk and stand for long periods.

Skills, Abilities & Experience:

- Safety credentials and a **safety first** attitude (safety orientation will be done upon hiring)
- Class 5 Drivers License with a clean abstract.
- Journeyman Certification as Power Line Technician.

AICEIM CONSTRUCTION LTD

- Over 5 years' experience in the electrical utility industry, with preference going to those who have led construction crews.
- Strong knowledge and understanding of all codes & regulations when applicable.
- Willing and able to commute. Most work will be around Calgary, but be prepared for the possibility of travel throughout Alberta. Reliable transportation is a must.
- Need to be reliable, punctual and willing to learn.
- Hard working, team player dedicated to company success.

To apply, please visit www.aiceim.com/employment and fill out the online form. No phone calls please. Only those chosen for an interview will be contacted.
